System Name	PWSID	Est. Loan Amount	Points	Rank	Population	Project Description	Est. Date to Close Loan
Red Hill Waterworks, Inc.	1043018	930,000	62	1	1,872	Proposed project involves the construction of two spray nozzle aeration systems, a new 54,000 gallon GST, two liquid ammonium sulfate (LAS) systems for chloramination, and approximately 7,350 linear feet of 6" water mains. AO: C-17-043-008-ETT	November-21
River Road Water Works, Inc.	1083008	2,380,000	51	2	3,510	The WS proposes new treatment specifically for iron removal and DBP remediation. The proposed project will include the following renovations; River Road Station shall include a new GST, booster station, iron removal system, disinfection system, electrical and control upgrades. Goose Hollow Station a new GST, booster station, disinfection, electrical and control upgrades, and the South EST is to be fully rehabbed.	October-22
City of Slidell	1103041	2,470,000	47	3	28,013	The proposed project will connect both of the City of Slidell's currently separated water systems with a 16-inch diameter transmission main that will allow water to be provided from one system to another in both directions.	October-21
Village of Harrisonburg	1025004	2,693,992	42	4	1,290	To tie the Harrisonburg Water System into the Enterprise Water System via a water transmission line from the existing Harrisonburg distribution line. Harrisonburg: AO: C-19-025-027-ETT TTHMS Enterprise: AO: C-18-025-046-ETT-M-I for TTHMS, inadequate CR, PNs, corrosion control.	July-22
Lake St. John WWD	1029006	238,000	39	5	1,920	Lake St. John Waterworks District I proposes the construction of a new water treatment plant (GAC), booster station, ground storage tank, site piping and related work. This station shall function as the primary production and treatment facility for the District. The new station shall be integrated with the existing distribution system and elevated storage tank. The existing booster station shall be abandoned and repurposed as the District's office. AO: C-18-029-010-P-1 (Notice of Penalties) Lake St. John also sells water to North Lake St. John WS (1029014). They are also under AO: C-18-029-024-P-I . The work should correct this AO also.	September-21
City of Lake Charles	1127017	20,000,000	38	6	1,595	Proposed project involves the construction of a new ground storage tank at the Hanna's Mill Facility of the Tannehill Water System, Inc. The existing GST is undersized and doesn't meet the current demand of the system.	January-22
City of Winnfield	1127012	1,230,000	36	7	5,000	Consolidation of HWY 84 West into the of City of Winnfield's water system. Construction will consist of: installation of various distribution piping, valving, and metering improvements to connect the existing distribution systems. Also included in the project is the construction of an in-line booster station, chloramination system, site piping and sity work. HWY 84: AO: C-14127-033-S1-DDBP-M-I for TTHMS, Cross Connection, Pressure Tank Discharge piping corroded, lockable ladder guard not provided.	November-21

System Name	PWSID	Est. Loan Amount	Points	Rank	Population	Project Description	Est. Date to Close Loan
Tannehill Water System, Inc. (Loan 2)	1073060	1,355,000	36	8	4,800	The proposed project is to construct two new GAC treatment plants one at the Tannehill site and the other at the Hanna's Mill site and associated items. The project also provides for a new booster station enclosures and electrical at both stations. A new ground storage tank is also proposed at the Tannehill Station.	January-22
Town of Lutcher Loan 3	1093003	861,750	33	9	3,559	The proposed project consist of water plant upgrades, including lauderer replacement, miscellaneous waterline replacement (8"), installing inserta valves, meter procurement, raw water intake pumps, and new 8" waterline (Labre).	August-22
Henderson/Nina Water System	1099006	4,000,000	33	10	4,365	Consolidation Project. The proposed project involves installing water lines from the Henderson-Nina Water System to Butte LaRose consolidating community and non community water systems along the route. To accomplish this task it is proposed to install approximately 18,000 L.F. of 12" PVC, 10,500 L.F. of 10" PVC, 17,000 L.F. of 8" PVC, 19,000 L.F. of 6" PVC, 12,000 L.F. of 4" PVC, and 30,500 L.F. of 3" PVC. Also included is GST, booster pumps and chlorination station at the Butte La Rose site.	August-21
Jefferson Parish (Loan 2)	1051001	30,000,000	33	11	432,552	Rehabilitate the raw water intake pump station. Construct a new 40MGD treatment facility including: flow split/flash mixing, flocculation/sedimentation, filtration, chemical storage/feed facilities, clearwell and high service pump, solid handling. Construct a new 10,000 sqft chemistry laboratory, and rehabilitate plant 3 to a facility capable of treating 62MGD.	June-22
City of Scott (Loan 2)	1055026	6,400,000	30	12	3,131	This project will consist of upgrading and improving the City of Scott Water System. This will be accomplished by purchasing property, constructing a water well (to produce approx 40% of the water it now purchases from LUS nad provide for source redundancy), constructing a water treatment facility to treat water produced from the new water well, constructing an onsite ground storage tank (to provide up to 2 days of potable water storage) with transmission pumps, installing water mains to tie into the existing City water system, installing larger water mains in existing areas of the City water system to eliminate low pressure areas, installing SCADA programming and controls for the system, and installing associated appurtenances.	December-21
City of Natchitoches (Loan 4)	1069007	2,110,000	28	13	17,831	Phase I of the project shall provide the complete replacement of several sections of the water distribution system within the City of Natchitoches that have recorded many leaks and complaints of pressure loss. The project shall include mains, meters, valves, hydrants, erosion control and related work.	April-22
Town of Hornbeck	1115016	2	27	14	1,762	The proposed project consist of a new water treatment plant and water main extensions.	June-22
City of Grambling Water System	1061006	2,200,000	26	15	5,000	Proposed project involves renovation of the City's distribution system. The project shall install various distribution piping, valving, and metering improvements to eliminate excessive water losses. Currently the City has an excess water loss of 25%.	June-22
